Spree!

a Cheapass game for 3-8 players

Springtime. Midnight. The Mall is beckoning.

Welcome to LeGrand Mall, the oldest and most poorly secured shopping mall in the world.

It's as leakproof as the Titanic and as solid as a wet paper bag. This place just begs to be robbed.

Enter you. And your infantile collection of friends.

It's not enough to simply loot this mall. You have to do it with "flair." Which boils down to an all-night looting race with shopping carts, flashlights, and guns.

So park your car, dash into the mall, and load your little red wagon. You can snatch stuff out of the stores if you like, but it's even more fun to steal it from your friends.

This explains the guns.

This is the "classic" edition of Spree, which combines the original Phil Foglio artwork with updated "Hong Kong" extra-violence rules. It's a simple race through a shopping mall, with plenty of mayhem, violence, and hilarity, plus just enough luck and strategy to make everybody happy.

You Need: Two pawns for each player, two 6-sided dice, two poker decks with jokers, and a way to keep score.
